

MRS. BLATCH TELLS HOW SUFFRAGETTES SHIVERED IN OFFICE

Furnace Didn't Work and They Finally Refused to Pay the Rent.

Mrs. Harriet Stanton Blatch, one of the country's foremost Suffrage leaders, took the stand before a jury in Justice Ford's part of the Supreme Court today to testify in a suit for recovery of rent brought by a former landlord.

The Woman's Political Union, of which Mrs. Blatch is President, had its quarters in a brownstone house at No. 18 West Forty-second Street in

the winter of 1913-14. It had to move during a critical time in the campaign because Mrs. Blatch says, George F. Parsons, wealthy owner of the premises could in no manner induce the furnace to do its work. A dozen of the city's leading Suffragettes, including Mrs. Blatch's daughter, Nora Blatch De Forest, heard their leader describe the frigid-ity of their headquarters and smiled when they were referred to as "shivering Suffragettes."

The jurors laughed—and Judge Ford joined them—when Mrs. Blatch ad-justed her lorgnettes and produced her diary excerpts, which showed that the temperature at headquarters during the troublous winter ranged from 32 to 54 degrees.

"The cold had been growing unbearable," said Mrs. Blatch, "and we had to give up our 'at homes.' Our au-diences were growing smaller each day and our volunteer workers de-serted us. My poor stenographers' fingers were frost bitten and they couldn't work the keys of their ma-chines. They went to work with their overcoats and sweaters on and finally that did no good. They came into my private office where there was an open fire place and of course that crowd disorganized us com-pletely."

"Then one day I noticed that a

thermometer that hung in a hallway had been moved to a room inside and hung near a window where the sun at noon day beamed upon it. I didn't know who moved it and I thought it rather strange. The mystery was ex-posed when Mr. Parsons sent us a gold thermometer on Christmas Day."

Here the witness produced her note-book and read that on Jan. 13 it was 32 degrees Fahrenheit—the freezing point.

"That was the day we had to move our 'at homes' to the Berkeley Lyceum at great expense and incon-venience," said Mrs. Blatch. "No one—not even suffragettes can work in Arctic weather."

MOB OF PARISHIONERS BAR PRIEST FROM CHURCH

Nail Up Doors and With Clubs Threaten Clergyman Sent to Officiate.

POUGHKEEPSIE, N. Y., Nov. 18.—Two hundred Italian parishioners, armed with clubs, prevented Rev. Fabian Lalli from saying mass at the Italian Roman Catholic Church to-day. Because of threats of violence against Father Lalli, who was sent here to succeed Rev. Nicola Pavone, the local police and Com-pany K of the State militia are being held in readiness to meet serious rioting.

The removal of Father Pavone split the congregation of the Church of Our Lady of Mount Carmel into two factions. When Father Lalli arrived to say mass early to-day he found large bars of wood nailed across the doors and windows of the church and rectory. Tacked upon the church were placards reading: "We want Father Pavone back. No other priest will do."

Father Lalli withdrew, fearing per-sonal injury.

Father Pavone's removal was recom-mended by the three trustees after a disagreement. They went to New York and had Father Lalli sent here in his place.

A crowd of women armed with sledge hammers which they took from the tool box of a gang of street lab-orers in the neighborhood made an attack on the church about noon to-day. They battered at the heavy iron bars which protect the basement win-dows, bending them badly.

CATCH GERMAN OFFICER WHO BROKE U. S. PAROLE

British Have Lieutenant of the Prinz Eitel Friedrich Who Dis-appeared From Newport News.

LONDON, Nov. 18.—A German naval lieutenant from the German converted cruiser Prinz Eitel Fried-rich, who broke his parole at New-port News, is now in the hands of the British naval authorities, according to information gleaned here to-day.

WASHINGTON, Nov. 18.—There is no official information here to in-dicate which of the Prinz Eitel's of-ficers is supposed to have fallen into the hands of the British. Dr. Kroneck and Lieut. Koch were recently seen by an American naval officer in a railroad station in New York City.

In addition to those officers, six warrant officers are missing from the cruiser Kronprinz Wilhelm, also in-terned at Norfolk. They put to sea in a yacht which they bought and their whereabouts is a mystery.

Nval officials are so disturbed over the continuing escapes that they have considered putting the German sea-men ashore in a guarded camp, and recently asked the State Department if the marine guard had a right to fire to prevent escapes.

\$7,000,000 DEAL AS BIG BUILDINGS FIND NEW OWNERS

Postal Life and Guaranty Sky-scrapers Involved in Real Estate Transaction.

As a result of a real estate deal in-volving seven million dollars, Clarence Payne, a young Californian, is now the owner of a fifteen-story of-fice building, a six-story apartment house, a ten-story loft building and a seven-story loft building, all in Man-hattan, and a five-story banking and office building in Savannah, Ga. With the exception of the fifteen-story sky-scraper, he owns all these properties free of mortgage.

The other party to the big real estate deal is the Postal Life Insur-ance Company. In exchange for the properties mentioned and a substan-tial cash payment, the life insurance company becomes the owner of the sixteen-story Guaranty Building now

under construction on the former Wil-son estate property at the southeast corner of Fifth Avenue and Forty-third Street. The property is valued at \$3,500,000. The two lower floors and basement are already under lease to the Guaranty Trust Company, and the Guaranty Safe Deposit Company at rentals aggregating \$1,500,000. The Postal Life Insurance Company also will have its offices there when the structure is completed.

The skyscraper conveyed to Mr. Payne is the present home of the Postal Life Insurance Company at 85 Nassau Street, southwest corner of Liberty Street. This is one of the first skyscrapers built in Manhattan. It was erected in 1895 by a syndicate and covers a plot of 73.2x111 feet.

The apartment house that figures in the deal is at the southeast corner of Amsterdam Avenue and One Hun-dred and Sixth Street. The two loft buildings are at 18 East Seventeenth Street and 80 and 82 Wooster Street. The Savannah, Ga., building is under lease to the Germania National Bank.

Appeal to Aid Danbury Hatters.

SAN FRANCISCO, Nov. 18.—Resolu-tions appealing to every union worker in the United States to contribute vol-untarily his wages for one hour to the relief of the Danbury hatters whose homes and bank accounts are jeopard-ized as a result of labor troubles, were adopted to-day by the thirty-fifth an-nual convention of the American Fed-eration of Labor. The resolutions fixed the day of the contributions as Jan. 27, 1916, the sixty-sixth birthday of Samuel Gompers, President of the federation.

Take Iron, Says Doctor, if You Want Plenty of "Stay There" Strength Like an Athlete!

Ordinary Nuxated Iron Will Make Del-icate, Nervous, Run-down People 200% Stronger in Two Weeks' Time, in Many Cases.

Most people foolishly seem to think they are going to get renewed health and strength from some stimulating medicine, secret nostrum or narcotic drug, said Dr. Bauer, a specialist of this city, when, as a matter of fact, real and true strength can only come from the food you eat. But people often fail to get the strength out of their food because they haven't enough iron in their blood to enable it to change food into living matter. From their weakened, nervous condition they know something is wrong, but they can't tell what, so they generally com-mence doctoring for stomach, liver or kid-ney trouble or symptoms of some other ail-ment caused by the lack of iron in the blood. This thing may go on for years, while the patient suffers untold agony. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your

strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while, double and even triple their strength and endurance and entirely get rid of all symptoms of dys-pepsia, liver and other troubles in from ten to fourteen days' time simply by tak-ing iron in the proper form, and this, af-ter they had in some cases been doctoring for months without obtaining any benefit. But don't take the old formula of radi-cated iron, iron acetate or tincture of iron sim-ply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like nuxated iron if you want to go any good, otherwise it may prove worse than useless. Many an athlete or prize fighter has won the day simply because he knew the secret of iron in great strength and endurance and filled his blood with iron before he went into an affair. If your mind another has gone down to inferior defeat simply for the lack of iron.

NOTE.—Nuxated iron recommended above by Dr. Bauer is one of the newer organic iron com-pounds. Unlike the older inorganic iron products, it is easily assimilated, does not irritate the stom-ach, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion, as well as for nervous, run-down conditions. The manufacturers have ac-crued a fortune in nuxated iron, that they offer for \$100.00 to any charitable institution if they cannot take any more or women under 40 who lack iron and increase their strength 200 per cent. or over in four weeks' time provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by J. H. Hargrave, Kalish Pharmacy and at all other druggists.—Adv.

TO-DAY'S BEAUTY AIDS

To clear up and whiten the skin and secure that charm of pink and white youthful freshness so much desired by all women you will find it far safer to rely upon a good face lotion rather than powder. To get rid of that shiny and muddy appearance in your complexion, dissolve four ounces of spumant in one-half pint hot water, and add two teaspoonsful glycerin. Apply this to your face, neck and arms, rubbing gently until dry. This lotion does not show or rub off like powder and is much better. It is splendid for removing tan, freckles, pimples and sallowness.

You can make a delightful sham-poo for a very trifling cost if you get from your druggist a package of catarrh and dissolve a teaspoonful in a cup of hot water. Pour a little at a time on the scalp and rub briskly. This creates an abundance of thick, white lather that thoroughly dissolves and removes all dandruff, excess oil and dirt. After rinsing, the hair dries quickly, with a fluffiness that makes it seem heavier than it is, and takes on a rich lustre and a softness that makes arranging it a pleasure.—Adv.

Open Letter From a Victim To a Victim.

To Whom It May Concern: For years I was afflicted with nasal catarrh and all of its annoying, disgusting symptoms. Any victim knows what the symptoms are, how they embarrass and disgust all about you. Finally, I began using Preisinger's Catarrh Balm, and in a very short time my catarrh was a thing of the past. It stopped the discharge and healed up the membranes, and I want every victim to profit as I did. Just address Preisinger Catarrh Balm Co., Decatur, Ga., enclosing 2-cent stamp for mailing, and enclosing for a Free Trial treatment. They will gladly supply you and prove to you their satisfaction what a wonderful medicine it is. (Signed) E. A. SMITHWALL.—Adv.

About Fitting Feet

The Coward Shoe

A great many foot troubles are caused by ill fitting shoes. Fitting feet PROPERLY is something of an art. We have been studying that art nearly 50 years, and we believe we can fit feet just a little better than the average shoe store.

We carry the largest range of sizes and shapes in men's, women's and children's shoes in the world.
